Industrial and Consumer Specialties

Nipacide CDZ

Biocide for dry-film preservation

Product Description

Nipacide CDZ is a dry film fungicide based on Carbendazim, available in powder form.

Nipacide CDZ is recommended for a wide range of coating applications including water-based paints and wood coatings. It is effective against a wide range of fungal species, responsible for the discoloration and degradation of surface coatings.

Benefits

- Good activity against a broad range of fungi
- Good activity at relatively low use concentrations
- Low water solubility
- pH stable
- Cost-effective protection

Technical Data

Product class	Carbendazim
Physical Form	Powder
Active content (ca.)	approx. 98%
pH stability	2 - 10
Temperature stability	
Recommended Use Level	0.05 - 5%

Applications

Nipacide CDZ is recommended for a wide range of coating applications including water-based paints and wood coatings where protection against fungi is required in the dry state.

It can be used over a pH range 2 – 10.

Safety & MSDS

Use biocides safely. Always read the label and product information before use.
